

MAYOWA ADEDIRAN

Frontend Web Developer

<https://www.linkedin.com/in/mayowa-adediran/>

PROFILE

I'm a passionate developer with a strong technological and business background. I'm looking to leverage my previous experiences, education and passion for technology to transition into a career in front-end web development role.

EXPERIENCE

Business Development Specialist (Intern)

Verstaad Technologies, Lagos

November 2017 – December 2018

- Developed business development and sales strategies applied across the technology, drones and engineering business units that helped gain new customers and manage existing customers.
- Prepared proposals for new business opportunities for the company's Microsoft products and managed relationship with exciting customers and prospects using CRM tools (Microsoft Sharepoint CRM).
- Conducted industry research to find out trends that enabled the company position itself in the Nigerian market.
- Prepared user manuals for new custom software developed for customers.

Business Development Executive

Systemspecs Nigeria Limited, Lagos

April 2015 – October 2016

- Managed payment gateway integration projects, collaborating with developers where I oversaw successfully clients integration from request to UAT and go-live.
- Handled POS terminal requests, configuration and delivery to clients.
- Facilitated hands-on trainings for Remita product users
- Researched and qualified leads to gain sales opportunities for e-payment, e-payroll and e-collection products, developed proposals, delivered presentations and closed sales offer.
